

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## PREFACE

---

This is a companion book to my previous work, Campbell's Abstract and Index of the Creek Indian census cards in the office of the Superintendent of the Five Civilized Tribes. This present work is an Abstract and Index of the Creek Freedmen census cards in the office of the Superintendent.

After the Civil War the Creeks entered into a treaty with the United States of America and by the terms of this treaty all slaves of members of the Creek Nation were recognized as members of that tribe and were given equal rights with those by blood. The treaties under which the lands of the Creek Nation were allotted to the individual members of the Tribe in severalty recognized this right in these old slaves and their descendants and referred to them as Freedmen. A separate roll was made for the Freedmen and a separate system of census cards was prepared by the Commission to the Five Civilized Tribes and these are the cards now in the office of the Superintendent which are here abstracted.

The general plan of this Abstract and Index is the same as that followed in the former book.

J. B. CAMPBELL.

Muskogee, Oklahoma,  
December 1, 1915.

## EXPLANATORY

---

It is very necessary that you read and read carefully this explanatory note. You cannot get the full value of this book unless you do and you will charge the compiler of the book with error for which he is in no way responsible, even though error in fact exists.

All cards are Creek Freedmen census cards and the title line gives the number of the card, after which is given the last known Post Office address of the citizen. Then follows on the same line the date or dates of enrollment. You will note that in many instances several dates are given. To make our plan clear we give an example. Let us suppose we had six persons enrolled on any particular card, and the first four of these enrolled citizens were enrolled in the month of August, 1899, the fifth enrolled on the card was enrolled July, 1, 1900, and the sixth was enrolled June 24, 1904. Unless it be more specifically noted on the card these entries will be made as follows:

Enrolled August, 1899; No. 5, July 1, 1900; No. 6, June 24, 1904.

It will be noted that under the first date we include the enrollment of all these citizens, who are not specifically numbered, such as Nos. 5 and 6 in this particular instance. Note also that the enrollment date is in the "title line" and not at the lower right hand corner of the card as on the original card in the office of the Superintendent.

Now taking up the tabulated matter in detail:

(1) The first column is under the heading "Roll No." This needs no explanation except to say that it is the roll number of the enrolled citizen whose name is found under the heading "name" later, on the same line. This roll number will be the roll number given in the roll book, published by the Department of the Interior.

(2) The next column is under the heading "No." and under this is given the number of those as they appear on the card. It has no other significance. It is used simply for certainty in future reference. Wherever the enrolled citizen whose name follows this number is referred to the number in front of his name is used, and not his name. Brevity was not the only reason for using the numbers, instead of the name. It may be that there will be two enrolled citizens on the same card, having the same name, and if we used the name it would lead to uncertainty. Therefore, we use the numbers. Its use may be explained as follows. Suppose we had three citizens on the card as follows:

No.	NAME
1.	Smith, John
2.	Smith Martha
3.	Smith, John

Suppose that the John Smith first named was the father of the John Smith last named. In the columns under the heading "Name of father" on the same line where the name of the second John Smith appears we write "No. 1," thus meaning that John Smith, who appears after No. 1 on this card, is the father of John Smith whose name appears after No. 3 on this card. Again, in the

notations at the bottom of the card you will see "No. 1 died January 14, 1913," "No. 3 died August 6, 1904." By using the numbers we make our references certain, and you know at once which John Smith died on January 14, 1913, and which died in August, 1904.

(3) Under the heading "Name" we give the name of the enrolled citizen, whose roll number appears in the column under the heading "Roll No."

(4) Next follows the columns under the headings "age" and "sex" and these we think need no explanation. This refers to the age and sex of the citizen whose name immediately precedes these notations. The ages are the ages shown by the census cards in the office of the Superintendent—not the ages at the time of the preparation of this Abstract.

(5) Above the next column is the heading "Rel." This abbreviation is for "relationship to No. 1 on the card." The first citizen enrolled on the card is usually the head of the family. There is usually no notation in this column after his name. The names of those enrolled, and which follow his enrollment, and who are on this card are, as a usual thing, related to him in some way, and this relationship is noted in this column. Thus, if "No. 2" on the card be the wife of "No. 1" then in this column will be the abbreviation "Wf," if "No. 3" be the daughter of "No. 1" then the letter "D" will appear in this column, if a son, then the letter "S," and here we use "StS" for step-son, "StD" for step-daughter, "GrD" for grand-daughter, "GrS" for grand-son, "Neph" for nephew, and niece, ward, etc. We think with this explanation no one will have trouble in determining the relationship of those on the card, as shown in this column.

(6) Under the heading "Name of Father" is found the name of the father of the enrolled citizen. This enrolled citizen being the one whose name appears on this same line on the card. Remember names of the enrolled citizens appear only in the column under the heading "Name." The father and mother may, or may not be enrolled citizens. If they are enrolled their names will be found in the column under the heading "Name." What has been said here of the names appearing under the heading "Name of Father" is also true of the names found under the heading "Name of Mother." If the father or mother be enrolled their names may or may not appear on the card, as enrolled citizens, with their child.

(7) After the names of father and mother will be found columns headed "living" and "citizen." We now take up these two headings and ask that you carefully note what we say.

(a) "Living." Under this heading we show whether or not the parent was living at the time his, or her, child, the citizen, was enrolled. If the parent was living at that time the letter "L" will be found under this column heading. If the parent was dead at that time the letter "D," meaning dead, will be found in this column. On the original cards in the office of the Superintendent if the father or mother be living, or if there be any doubt of his or her death, then this column was left blank. We have made no changes in the notations of death as noted on the original cards. We have, however, added the notations as to the living and in doing so have used the knowledge gained by our continued working at the cards and have noted those whom we believe to be dead with a question mark thus (?). You will realize that we could not be absolutely certain in making these entries.

(b) "Citizen." Under this column heading we have sought to determine the citizenship of the father or mother. These columns were not filled in to any large extent on the original cards and we have attempted to complete the card in this regard. We have made errors, but knowing we are certain to make some errors we are giving you the result of our cross study of the cards and you can readily verify our notations by investigation, and you should in every case make an investigation before you part with your money. In these columns we use abbreviations and they are intended as follows: "Cr." Creek Freedman; "Cr. I." Creek Indian; "Cher." Cherokee; "Choc." Choctaw; "Chic." Chickasaw; "Sem." Seminole; "Non" non citizen, etc. In our notations in these columns we have undoubtedly made more errors than was the case in our Indian Abstract. This for the reason that we did not have the "blood" column notations to guide us. We have used the question mark (?) much more freely.

The abstract of the "New Born Freedmen" and the "Minor Creek Freedmen" is somewhat different from the abstract of the original Creek cards and these will be preceded by explanatory notes.

We believe one half of the Creek Freedmen allottees to be dead at this time. We have not been able to show the percentage dead we did in our Abstract of the Indian Cards and the reason for this is as follows:

The Freedmen were always in sympathy with the Government in its plan to carry out the terms of the treaties. They were the first to enroll and the first to secure allotments. They occupied and farmed the better portion of the Creek domain, while the fullbloods kept to the hills and backwoods. Many of the fullbloods were adverse to the plan of the Government to allot the lands to and among the individual members of the Tribe in severalty and neglected and refused to appear before the Commission, and enroll themselves or their families or to take in allotment lands for themselves or for members of their family. As a result the Freedmen secured the better class of land. All land had been appraised and a standard allotment of lands was one equaling in value \$1,040.00 and allotments were to be equalized on this basis. Later, however, Congress provided that the lands should be equalized on the basis of a standard allotment value of \$800.00. Most of the Freedmen had secured in allotment lands of greater value than this amount. Therefore there was nothing due them out of the equalization funds and no proof of death was taken in cases where the allottee had received land equal in value to \$800.00 or more.

We have shown all deaths of which the Superintendent's office had a record at the time we compiled our data. The dates of death given are not reliable in many instances as will be seen by the fact that in some cases 2, 3, 4, and even 5 death affidavits are filed and in no case is the date of death given as the same, and we have had our attention called to one case where the difference amounts to something like 14 years. Again, in a number of instances death affidavits have been filed when in truth and in fact the persons reported to be dead are living. Prospective purchasers should investigate these matters of death carefully.

There were two Freedmen citizens enrolled by act of Congress during the year 1914. These will be the two last named on the original roll. They secured no allotment of land.

**ABSTRACT**  
**OF**  
**NEW BORN CREEK FREEDMAN CENSUS CARDS**  
**Enrolled Under Act of March 3, 1905**

---

In the preparation of these New Born and Minor Creek Freedmen rolls the Dawes Commission used a card somewhat different from the card used in making the original roll, and in this Abstract I have omitted three of the column headings which I used in the Abstract of the original cards, to-wit: I have omitted the column under the heading "Relationship to No. 1." This because of the fact that all of the citizens enrolled on these rolls are children born since April 1st, 1899, and their parents and older brothers and sisters would not appear on this roll.

I have omitted also the column under the heading "Living" after the name of the father. Also the column under the heading "Living" after the name of the mother. In place of these two columns I have added two others. Under the column heading in each case "Roll No." This means that in these columns will be given the "Roll No." of the father, or of the mother, in case either be an enrolled citizen of the Creek Nation of Indians.

It is possibly true that some who are enrolled as Creek citizens have not a roll number in these columns, if so, we have been unable to so identify them, and the records in the office of the Superintendent does not enlighten us.

You will also note another change in these cards, in this, where the date of enrollment is given on the preceeding cards the date of birth of the citizen is given on the following New Born and Minor Creek Freedmen Cards.

In other particulars the explanation given preceeding the Abstract of the original cards are applicable to these cards.

The New Borns and Minors which are enrolled on the two following rolls do not participate in the Creek Equalization payment, therefor, no proofs of death are now being taken of those dead, and as a result we note only those shown to be dead by the Census Cards.

## KEY TO INDEX

---

The following index includes the names of the father and mother, as well as the names of the enrolled citizens. It is arranged alphabetically, both as to the sir and christian names. We have been very careful in its preparation and have spent months in an effort to make it as complete and useful as possible. We do not expect that it, in connection with the Abstract, will answer all questions. It will however be a very great help to those who will make a proper use of it, and use it in difficult cases in connection with information received outside the record.

Many of the Indians and Freedmen have more than one name. They have their family name, sometimes a school name, which is different and also a "busk" name. We have knowledge only of the names written on the Census Cards, and such names we have used in our Index, however when we could determine that different spellings stood for the same name and person we have cross indexed.

In the preparation of the enrollment records different clerks, in the office of the Dawes Commission, took testimony from those seeking enrollment. As the names were pronounced to these clerks, the clerks on hearing the names, and hearing different pronunciations, spelled the names differently, and this different spelling is carried on the cards. In fact, it is common for the same name to appear on the same card twice, and the spelling be different. Again, the same name may appear on several cards and the spelling in each case be different. We remember one case where the name of a father was on five cards, and in no two instances was the spelling the same. We have attempted to overcome this and by our system of cross indexing refering you to all cards where the name of the party you are looking up appears. We realize that we have not been able to do this in every case. This would be an impossibility, but we do know that in thousands of instances we have been able to make citations which will be of great help to you.

In making your investigation of the record you will find many "leads" If you will take these "leads" with the information secured outside of the record, and turn to the index and run them down you will undoubtedly secure that which will make the relationship clear to you. This Abstract and Index is a help and not a cure-all.

We note the following instructions and aids in using the index.

(1) All numbers not prefixed are citations to card numbers. The prefix NB refers you to New Born Creek Freedmen Roll Numbers. The prefix M refers you to Minor Creek Freedman Roll Numbers. C. E. refers you to Congressional Enrollment Creek Freedmen Census Card numbers. Note that the citations to the original cards and to the Congressional Enrollment cards are to card numbers, and the New Born and Minor Creek Freedmen citations are to roll numbers. This was necessary because of the fact that the New Born and Minor Creek Freedmen card numbers were not in consecutive order.

(2) If you are cited to a card and on turning to that card do not find the name, do not conclude that the citation is an error. It is not. Why we made the citation we have not stated, but, we have made no citations unless

there was some reason for it, or we believed that there was some reason for it. If in such cases you will run down the different names on the card referred to you will undoubtedly see our reason.

(3) Examine the Index under every conceivable spelling that the name may have. It may be indexed under "K" or it may be under "C." Not only is this true of the first letter but of the entire spelling of the name.

(4) In case of an odd name examine a few names just preceeding the place where you think the name ought to be, and also look at a few of the succeeding names. The name may not be just what you think it is, but you will undoubtedly recognize it if you see it and on turning to the card the information there given will undoubtedly show whether or not you have found the name of the party, or parties, desired.

(5) In making an investigation as to the members of any particular family you have more or less information to start with. Use this information with your Abstract and Index. Make this Abstract and Index valuable to you. It will be so in proportion to your intelligent use of it.
